

# How to use the Uber app

Our core service is developing technology that connects drivers and riders on demand. Here's how the app works, step by step:

## Step 1

### A rider opens the app

The rider enters their destination into the "Where to?" box; reviews each ride option for vehicle size, price, and estimated dropoff time; chooses the desired option; then confirms the pickup.

## Step 2

### The rider is matched with a driver

A nearby driver sees and chooses to accept the rider's ride request. The rider is automatically notified when the driver's vehicle is about a minute away.

## Step 3

### The driver picks up the rider

The driver and the rider verify each other's names and the destination. Then the driver starts the ride.

## Step 4

### The driver takes the rider to the destination

The app gives the driver the option to access turn-by-turn directions.

## Step 5

### The driver and rider leave ratings and reviews

At the end of each trip, drivers and riders can rate each other from 1 to 5 stars. Riders also have the option to give the driver compliments and a tip directly in the app.

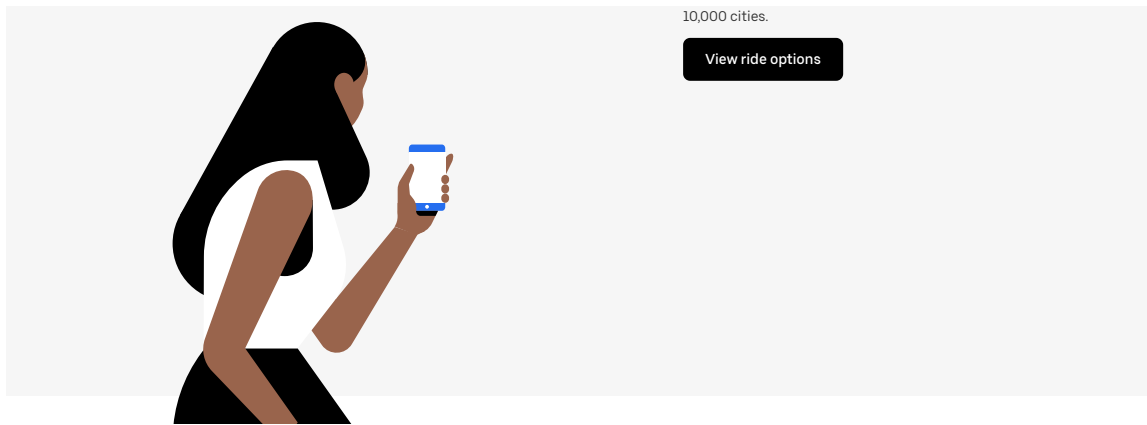

## Sign up today

Ready to experience Uber for yourself? Take your first trip as a rider, or get on the road to earning as a driver.
